

Effective Supervision Training for the Community Services Sector

Designed by practitioners for practitioners

Designed for staff who have supervisory responsibilities of teams in the Community Services sector, this workshop aims to provide participants with the skills and tools to run constructive supervision sessions. It focuses on a practice perspective which embeds evidence informed practices into a non-clinical supervision model.

Program Topics

- What is supervision? (components of supervision, effective/ineffective supervision, supervision contracts)
- Prioritising supervision
- Evidence of informed supervision practices
- Strategies for effective supervision
- Documenting supervision
- Supervision through a cultural lens

Learning Outcomes

- Foster an understanding of the importance of the supervisory role
- Develop key skills in becoming an effective supervisor
- Increase confidence in supervision capability
- Identify and implement supervision strategies

Delivery Details

This is a 3-hour highly interactive workshop that can be delivered either in-person or online. To optimise the learning experience and maximise opportunities for learner participation, audience capacity is 30 participants per session.

Who should attend

Any participants in the Community Services sector who have supervisory responsibilities. This training is fully customisable to accommodate either new supervisors or those with more experience who wish to further develop their supervision skills.

Supervision and Leadership Skills Training combined workshop

Paired with the Effective Leadership Skills training, this workshop can be delivered as a Supervision and Leadership Skills complete training package. The 6-hour combined content forms a powerful approach to leadership skill development specifically catering for staff who wish to support and successfully lead teams working in the Community Services sector.
