Victorian Child Safe Standards eLearning module (individual access)

Designed by practitioners for practitioners

The Victorian Child Safe Standards require organisations involving children to have policies, procedures, and practices to keep them safe. Organisations that provide services or facilities for children must implement Child Safe Standards to protect them from abuse.

Child Safe Standards eLearn Module (~1 hour)

This interactive eLearn module created by The Centre is a great alternative to or pre-requisite for a Child Safe Standards Workshop. The eLearn module informs participants of each of the 11 Standards currently in place and helps individuals understand what measures they can take to help their organisation be compliant with the standards.

Key features:

- Understand all 11 Child Safe Standards and the role of the Commission for Children and Young People (CCYP).
- Checklists to help individuals and organisations implement each standard.
- Interactive activities and videos.
- Further reading and key resources.
- Quizzes to test your knowledge.

Cost

Please note that individual users who would like to complete this eLearn module must register by 'enrolling' in this course and paying via credit card.

Member Price: $30 + GST

Members discount, applied automatically at checkout.

Members must be registered under their personal organisation email address for the discount to be applied. Please contact training@cfecfw.asn.au if you would like to have your personal account merged to retain your training history.

Non-Member Price: $40 + GST
